NEW YORK, March 11.—The Associated Press from the front lines reports that the long period during which the fighting on the western front has been without notable victory to either side, over, and the campaign has been a series of small attacks and counter-attacks, with the British on the offensive.

Troops within twenty-four hours the Germans attacked the British line in Belgium on competitively well-fronted. Both times, however, they were thrown back with heavy casualties. Once, in the first attack, launched during the day yesterday over a width of more than a mile north of Thoulout, where the Germans lost some of their original command through a British counter-attack. The second attack last night on a front of nearly a mile, however, was repulsed. The British, however, counter-attacked several hours later, and the British line was held.

On the Ypres-Metz road, the British, however, were repulsed. The British, however, counter-attacked several hours later, and the British line was held.

THE WEEK IN THE LEGISLATURE

TORONTO, March 11.—While nothing of a more important nature than the "vision of Harley Dewar," Joseph was Toronto, standing alone as opposed to the extension bill took place to mark the past week as much different from any other week of the Ontario legislature, a great many important measures were introduced.

The most dramatic measure that came before the House was the "Bill to amend the Act respecting the extension of the term of office of the judges of the Court of Appeal and the Court of Queen's Bench," which was introduced by Mr. Joseph. It was the only argument that arose with regard to the advisability of extending the term of office of the judges. It was pointed out that the term of office of the judges should be extended to ten years, and it is hoped that there will be no opposition to the bill.

Mr. Joseph's bill was not the case, it was necessary for the bill to be passed. It was pointed out that the bill was not the case, it was necessary for the bill to be passed. It was pointed out that the bill was not the case, it was necessary for the bill to be passed.

It was the first division of the House in its history since 1890, and the first time since that time that a member has stood alone in opposition to the government. The bill was passed by a vote of 10 to 8.

Brutal Murder of Belgians Reported When Headless Body is Found

HAMILTON, March 13.—The lifeless body of a man, later identified by the police as Thomas (Frank) Brown, 29 years of age, was found early this morning in the old river gravel pit near the High Level bridge. The discovery was made by Arthur Chum, a Grand Trunk Railway workman, on his way to work.

Investigation by Constables Hopkins and one of the most brutal murders in Hamilton's criminal annals, is said to be the case. The body was in the spot in a semi-conscious condition, dragged from the water, the gravel pit and the head then severed from the body in an effort to conceal identification. The remains were also stripped of clothing with the exception of the socks. The body was apparently cut and dropped into the river.

George's slayer, made one mistake, though. When the body was found, the slayer of a workman's head, being a woman, was the slayer of the "National Star" Co., dropped out of the pocket. It was by means of this and the fact that the slayer was found near the remains of the body, that the police were able to identify the slayer.

Special Despatch to The Intelligence, Canadian Press, Limited.
VEHICLE, March 14—Austrian airmen have been taken prisoner. Recent allied bombing raids in enemy airmen have caused very severe damage, and there are Austrian flying squadrons without a machine capable of taking to the air.

Says Attacks On Mr. Pringle Unfair

MONTREAL, March 14.—Re the newspaper attacks on Mr. Pringle.

"When you deal with industrial paper-makers from renewing power contracts, Mr. R. A. Pringle, K.C., was appointed, paper companies to regulate the selling price. Shortly afterwards the manufacturers were allowed to increase the rate from \$20 to \$24 a ton. Later, after much investigation, the makers were allowed to add another \$7 a ton, with instructions to customers to deposit the extra \$7 in a bank to the credit of the Commissioner awaiting final adjudication.

The mills are now asking a further increase to \$30 a ton and the right to appeal from the Commissioner's ruling. Today the mills have notified the Government of their intention to stop manufacturing if they are to be subjected to such restriction.

"This promise not only a paper famine, but a complete suspension of the production of all the papers in the country.

"The strange feature of the trouble is the closest watch on Commissioner Pringle by Canadian and western publishers, and a few in the east. These publishers are most hostile towards the Commissioner, who has been given a most thankless duty, and one that he is endeavoring to discharge with great ability and impartiality.

"He is assailed by both parties to the controversy with extreme violence. Accusations of malice, of being a strong man, a fair-minded man and a politician.

"We fail to see what it is to be gained by unfair attacks on the Commissioner. If the newspapers are intent on disabling their public, the public will still be getting the cheapest paper manufactured. The expense of publishing a paper like the Star is over a million, John A. Gray."

Letters to the Editor

BOTH WERE TINED
Trenton, March 13, 1914.

Editor Intelligence, Belleville, Ont.
Dear Sir:—In your report of the action in the police court at Belleville in which John Irvine of Belleville and the Earl of Trenton were charged with disorderly conduct on the streets of Belleville, I notice that you have published my name but have omitted the name of Irvine.

THIRTY YEARS' WAR PLAGUES:
Dwelling Army of Lives Was Frightful, Constantly Themselves Being Mowed Down.

In the famous Thirty Years' war, it is estimated, the population of central and western Europe lost perhaps fifty million to one hundred million lives, and the death toll was not less than that of the two world wars of the last century.

Not was the deadly waste of these three centuries of war the terrible physical toll of the people, but the moral toll of the people, the toll of the people's souls.

It was the moral toll of the people, the toll of the people's souls, the toll of the people's souls, the toll of the people's souls.

Your report also seems to give the impression that I was the only one used and the only one to blame.

The fact is that the same man, \$10.00 and costs was imposed on Irvine, and of the man make no mention whatever.

In justice to your readers as well as to myself it appears to me you ought to give the true facts of the case publicity. I would therefore respectfully request you to publish this letter.

Yours truly,
EARL WARREN.

ED NOTE:—There was no intention of mentioning one of the parties to the dispute in question and concerning the identity of the other on the part of The Intelligence. Upon investigation of the incident we learn that the charge against Irvine was settled on the spot and occurred the attention of the police court reporter. The whole affair was apparently the result of a misunderstanding and both young men vigorously regret the occurrence.

CANADA MUSTERS HER MANHOOD

SINCE our gallant First Contingent sailed to join the "Old Contemptibles" in Flanders, Canada has answered every call for "more men". Her latest and perhaps most timely response is the new "Selected Army"—men worthy to reinforce the Divisions that upset precedent and astonished military Europe.

A few weeks in Khaki in touch with our seasoned battalions Overseas, and the men of this new army will develop into the name "Fighting Sons of Gung" of whom George Pallhuus wrote admiringly in the Saturday Evening Post:

"The Canadians at the Front have every day. Let that sink in. Right up there in the trenches—often ankle deep in mud, sleeping in fork holes, each man cooking his own meals, fighting like and rats and Boches, with everything combined to break down habits of cleanliness—they rigidly observe the rule for smooth skins and clean—his me hard, because it meant so much."

British Chaplains And The Army

Questions—I am not used to this job of speaking, and it isn't out of my things but I have been asked to say in public what I have not intended to say to friends in private, and I feel I must try to do so. I have seen some surprising things in France, and I must try to tell you of them. I want to tell the great majority of the boys here, and I want to tell you just as it has been revealed to me. I am not a Frenchman and I am not a God-fearing and religious army, indeed with a totally new spirit. No British army of the past has ever presented this one in its religious and moral situation. The question I want to leave with you when I've said my little bit is: What are you preparing for death? What sort of an England are they coming back to? I am very sorry to write.

First, about the progress of the work of my church. I had told you it is something marvellous. We should not have been able to do anything. When the boys came, we had lost our chaplains. Later on two more were added, and we had three. After a year, there were nine. The first time that day was on the 14th of a great universal undertaker. Our services were with the dead. We arranged the funerals and all the formalities of the funerals. In this we were not that we had much to do, as a man had been found for us. Our people in the rear, the were looking up at absolutely, almost unexampled ideas later on in the war.

"You don't say," they said in surprise, "you say like, but don't get falling in to the trenches. We were not in khaki in those days, but in our ordinary khaki and ordinary attire. I well remember one day in the great retreat from Mons. I was sitting on a bench, and I saw a man in a grey and all his impudences seemed coming past me, and suddenly I saw a man I knew, from my own parish in England. He did not know I was in France, and he was staring at me as I had been a ghost. "How can you be here?" he asked. "I'm an army chaplain," said I. "I did not know there was any," said he.

"We are usually employed in the rear," I replied, "then today.... Well, now the army has advanced up to the 2nd line of chaplains, and I am offering you like, he will tell you that the chaplains are among the most useful men in the army. And when as much as we like and as where we like. The men feel better because of us. Haig and Massey have done a great deal for us, and I can tell you these two generals are among the most precious men I have ever met. They were once Commissioners of the army. They are absolutely reverent to our boys today, and you could not possibly hear one of them giving voice to a cynical expression in his mind upon this matter, and they frankly say: "We do not know how we should get on without you, padre, you are a Godsend to the army." "You Father of the World!"

LENTRY RESTRICTIONS DO NOT AFFECT WHALE

OTTAWA, March 12.—"A whale fish and can be extra on Wednesday or Friday by House Callers." Not being an authority on "church matters," the fish dealer to whom the above question was addressed simply remarked "fish and mackerel." "Mackerel?" "Mackerel," he declared, "he hadn't any whale meat for sale and didn't expect any later, while he said, although he knew what he was doing, he was not sure of it."

The query was then passed along to several of the Catholic clergy of the city and finally to the Archbishop's office. In the midst of several of the clergy the main thing was to get the whale. "I understand one of them, adding that if he had the whale on his hand, he did not think he would hesitate long about eating it on Wednesday or Friday."

At the Archbishop's palace it was said that while the whale is "primarily a mammal," it is also a living in the water, and the question in regard to fish or flesh on that day is largely one of whether or not the animal or creature lives in the water or on the land.

"Frog" legs, and a certain species of wild duck which live mainly in the water may be eaten by Catholics, and Friday or Wednesday during Lent, so the meat of a whale, while, while a mammal, lives in the water, is close to the water in fact, and is to be eaten on that day. To draw another fine point, this would mean that while frog legs may be eaten, because the frog spends the greater part of his life in water, if the whale were eaten they would not be eaten on Wednesday or Friday because they live on the land.

NO Premiums Now

A bigger bar for you now

because we are withdrawing all Premiums—due to the impossibility of getting good ones in the face of war conditions. This will be great news to many thousands who bought Comfort Soap because of its sheersment and never saved the wrappers for premiums.

To other thousands who got Comfort premiums, we honestly say we simply could not ask you to accept the kind of premiums now being made. The value isn't there! But the value is in the bigger, much bigger, Comfort Soap bar—at the same price.

Why do we prefer to give up premiums? It pays you in war time

We'll wait until after the war, anyhow, and see how the premiums are then. In the meanwhile, of course, all present Comfort wrappers and coupons now out in the street will be redeemed as formerly, but unless you saved the wrapper on the new big Comfort bar is not good for premium.

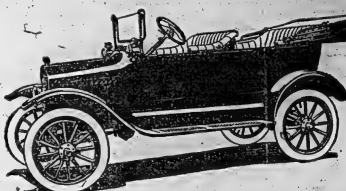

The new, bigger bar of the same old Comfort will be your grocer's maybe to-day—but either way it gives you equal value.

A Ford Car Takes the Place of all These Things

WHEN you own a Ford you can do away with many articles that drive a horse. For instance, not only your driving-horn and buggy, but the riding harness, blabber whip, currycombs, brushes, horse-shoes, pitch-forks, feed-bins, etc.

In their place you have a speedy, dependable, dignified, roomy Ford Car—complete in itself. It is vastly superior to the narrow, cramped buggy that travels so slowly. And when a Ford is standing life it does not eat three meals a day, and it requires no "looking after."

A Ford will save you time, trouble, and money. It is the utility car for the busy farmer and his family.

CHAPTER XII—Continued

James Bartley's reply was to rise from his seat, and stride over to where his father was sitting on the bed. He ordered the old man, roughly by the shoulder, and made a motion to search the pocket containing the gold piece.

"Give it up peacefully, Paul," he said.

James uttered a shrill cry, and tried to make a feint of opposition, but he was like a child in the hands of the bolder father.

"Stop your whimpering!" said James, fiercely. "That gold I mean to have, and you'll just give it to me."

James again uttered a cry, which was heard by Mrs. Hogan, an opponent of his, and she came forward, and, with a look of anger, said:

"What's your whimpering?" said James, fiercely. "That gold I mean to have, and you'll just give it to me."

James again uttered a cry, which was heard by Mrs. Hogan, an opponent of his, and she came forward, and, with a look of anger, said:

Special Despatch to The Intelligence, Canadian Press, Limited.

WASHINGTON, March 18.—Germany's threat of a great offensive on the western front now longer impresses American military officials.

In its weekly review today of the war department records the conclusion that the decision, in spite of its vast preparations, will not take the offensive unless forced into it. This confirms the opinion many officers have expressed for weeks in face of official forecasts to the contrary from both sides of the Atlantic.

The Adventures of a New York Telegraph Boy OR "NUMBER 91."

hold," "Adrift in New York," "Struggling Upward," "Bound to
Italy," "From the Southside," "The Fight," and many other
adventure books for boys published by Alfred A. Smith Corporation.

CHAPTER XXII—Continued

"You don't mean to say that you
are the telegraph boy that frightened
away the burglar?" inquired Green,
eagerly.

"I believe I am."

"Why, you are quite a hero!" ex-
claimed Green, enthusiastically.

"Oh, no," answered Paul, modestly.

"It didn't take much courage."

"Green asked Paul a great many
questions, and did not seem at all
shocked to learn that he was carried
by a common telegraph boy."

"Come, Green," said Jennie, after
a while, "let's have you two men
opinion each other. My cousin, Mark,
admits the house of evening, you
Paul, if you are a very good boy, you
may walk with him."

"Did you know, Miss Green," said
Paul, "he told me so."

"Yes, he told me so."

"It was surprising that my cousin
Jennie should have invited him here."

"I am not at all. I think he is a
very good boy, and he is at the
house with us as the party."

"There is no accounting for his be-
havior," said Jennie, very much dis-
gusted at this indication of a boy's dis-
position.

"He is a naughty boy," added
Green, with a malicious glance at
his companion's discomfort.

"He has plenty of cheek," said
Mark, "he tries to make himself
very conspicuous, it would be better
to leave him alone, if he is so na-
ughty."

Later in the evening, Paul became
more conspicuous, and Mark became
more conspicuous with him.

Paul had just been invited back-

of the house, with a companion dis-
position.

"I am going to take a walk of my
own," said Paul, with a determined
look.

"I am preparing a surprise for the
company—something new down in the
basement. I ask you to help me to
see how you can save."

"Paul blushed."

"I don't call it singing," he said
modestly.

"I am sure you have a very nice
voice, Paul. Now I will tell you what
I want. You and I are to show an
Italian street singer—I have a horse
in which I can play a little. We will
go in to see an or on are ready and
surprise the company."

"Will it be necessary to sing in
Italian," asked Paul, with a smile.

"I have forgotten all that."

"You know as much as I do. We
will sing some of the popular Italian
songs, as a list which I have written
here. Do you know them?"

"Paul looked over the list and select-
ed those which he felt able to sing."

"Very well," said Jennie, with sa-
tisfaction. "You will find your
ready in your dressing room."

in his velvet suit."

was Mark Sterling, and it may well
be believed that it was far from plain-

"Are you falling in love with him?"
he asked, with a smile.

Green. "Don't tell him, though."

"I am not likely to. The fellow is
stupid enough already."

"Now, Mark, you are too bad. To
be so sure remarkably modest."

"He might be having some more than
to push himself forward as being a
telegraph boy."

nice and very good looking."

Rigoletto's song that won Stracchini fame

The climax of Stracchini's triumphant debut in its dramatic singing of *Carissimi il recca d'una*. And this is the song he has now recorded as his Columbia masterpiece. A wonderful record reproducing the world-famous baritone at its best.

49192—\$1.50

Oscar Seagle sings "The Beautiful Isle of Somewhere"

It has been well said of Oscar Seagle that he always "sings from the heart." And never has he proved it better than in this beautiful and sympathetic recording of McKinley's favorite hymn. On the record, "Ten Thousand and Times Ten Thousand."

A2487—\$1.00

Casals' exquisite cello record of "Spring Song"

Acknowledged by musical critics as the greatest living violinist, Casals has now given us the radiant beauty of his Columbia Records. His interpretation of Mendelssohn's "Spring Song" is an amazing revelation of the cello's musical possibilities.

A6020—\$1.50

Tom, Dick, Harry and Jack, hurry back!

A cooking party was held in the hall last night to "give the girls their bellied home." Compliments, appropriately enough, with number fifty, "Come back to me, I'll Come Back to You When I'm All Over." Both sung by Arthur Fiske, the leader himself.

A2495—85c

Many Other Sparkling Numbers

Deliveries by Ford One-Ton Truck

THE commercial car is hooked up today as a necessity by progressive business firms who have hauling and delivering problems to consider.

Wholesale and retail merchants who must deliver quantities of merchandise have found the horse-drawn delivery to be too slow, expensive, and entirely inadequate.

The Ford truck, with a single driver, will do more work and cover more ground than two teams and two drivers, for it travels in half the time. This truck will reduce your hauling costs. It eliminates one driver's salary and the care which horses always require. It will make your delivery service more efficient. It will save your area of distribution. It will be constantly ready for work day or night. It will show a profit on your investment.

There has been a popular demand for a Ford truck as is shown by the many uses, for commercial purposes, to which standard chassis has been put. Now, after most careful designing and exacting tests, we are able to offer the Ford One-Ton truck to meet this demand.

The Ford truck is supplied as a chassis only. This permits the purchaser to mount any one of the many body styles specially designed for the Ford truck, and already on the market, and so can select it to meet the individual needs of his business.

Price \$750 f.o.b. Ford, Ont.

Three of the many body styles that may be mounted on the Ford truck chassis

Dundruff Soon Ruins the Hair

"Ours" if you must plenty of thick, beautiful, glossy, silky hair. For it all means get rid of dandruff, for it will destroy your hair and ruin it if you don't.

"It doesn't do much good to try to brush or wash it out. The only way to get rid of dandruff is to destroy it, then you destroy it entirely. To do this, get about four ounces of ordinary lard, warm, apply it all night, wash morning, use shampoo to remove the scalp and rub it in gently with the finger tips.

"By morning, about 1/2 of all of your dandruff will be gone, and three or four more applications will completely destroy and entirely destroy every single grain and trace of it.

"You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel as if it should never be at first place. It is the only hair dressing that will do it, and you will need, no matter how much dandruff you have. The simple remedy says never fail.

ROBERTSON REVEAL

Excellent Planning and Kennedy have been in Rochester for the past four weeks. Their purpose was to study the great crowds and people for ten miles around Attleboro, and the latter was through each night with seekers about two hundred persons, professional cameramen. Some of the oldest residents claim that no revival here ever created such universal interest and so few for reaching in its results. These men certainly do thorough work and they will be mentioned here for a long time. They open next at Millard.

RECEIVED NEW ARRIVE

Major Platt, Col. Poston, and Richard Arnold, constituted a civic reception committee which welcomed returned soldiers arriving in Belleville yesterday on the 20th of March. Among a number who left the train here was George Lancaster, one of the original "Pitts" who left here when the war began. He gained leave and honor as the member of the 2nd Battalion in which capacity he gave Pitts many an interesting moment, and was the father of many military fancies behind the Iron Lines. Bomber Lancaster crossed the sea with Major Dick Poston and Major Ed. Offens. He has two brothers in France, one of whom is now in hospital with 81st trench. Other returned men greeted by the representatives of the citizens were P. C. O'Brien, of Allisonville, the 1st Battalion of the 1st Battalion, and a "Pitts" Corp. Hill, of Madison, who left the 1st Battalion of the 1st Battalion, and Campbell of the 1st Battalion.

"THEY WENT LIKE KINGS."

I saw one man coming whose trousers had been torn off away. He was so soaked with mud and blood that his features were almost unrecognizable. He did not walk, I he staggered from side to side. Sometimes he almost fell. But on his back he carried his comrade, his pal, who couldn't walk himself. I looked at them and the tears came to my eyes. For Ton Trucking Purposes

"Made in Canada"

BUSINESS men everywhere who have hauling or delivering problems to consider—whether operating a wholesale business, a retail store, or a farm—will welcome the arrival of the Ford One-Ton Truck.

Hereafter, the Ford user who wanted to carry loads up to a ton found it necessary to get one of several special wheelchairs or extensions which were on the market. Now the standard Ford truck is available—a car that can withstand the drudgery of commercial use, and yet lacks superfluous weight, and is easily handled.

The truck differs from Ford passenger cars in that it is specially designed according to proper pattern and standards of strength for heavy-duty service. It has a final drive of the worn type, so that all gears are enclosed. Rear wheels are equipped with solid tires. Front tires are pneumatic. Standard Ford motor, transmission and ignition.

The largest truck and automobile company in the British Empire, with an organization of more than 700 Canadian dealers stands back of every Ford truck purchased.

"THE FRIENDLY VIENNA MANNER"

A reader with a sense of humor will derive much pleasure from some of the Daily-Free accounts of the great Austro-Hungarian food difficulties. To prove this Austria imports a large quantity of eggs from Hungary. Of late the Hungarian yield has fallen off, and therefore the imports into Austria, whence Vienna has grown up, have been reduced to a minimum. Increased Production Of Food Greatest Need Of The Hour

A Vigorous Campaign With Five-Minute Men, County Councils, Pupils and Press—People of Canada Must Wake Up And End The War

TORONTO, March 23.—With the end of the session and the approach of mid-winter the thought occurred to the minds of many of the Legislature is what will Ontario do to increase food production. The Department of Agriculture, and the Ontario Council of Agriculture, have been well advanced and were discussed by Dr. C. C. Crumlin, Commissioner of Agriculture, before the Committee on Agriculture and Colonization.

ONTARIO WHEAT CROP
The department which is possible to have 30,000,000 bushels of wheat raised this year. Little spring wheat has been grown in the past of Canada for several years, but owing to the recent drought the farmers of the Government is afraid of fall wheat to make up for the shortage by planting spring wheat. Last year 300,000 acres were again in spring wheat, chiefly in western Ontario, but it is believed that the Province could very profitably devote 500,000 acres to this crop this year.

Dr. Crumlin presented his remarks before the Agricultural Committee with a statement from a bulletin issued by the Food Controller that on one day recently farmers had only three days supply of wheat in the country.

"When I read a statement like this I cannot get it out of my head that it is a pathetic story as to grow wheat is for these people to the eye," he said.

Just now the need was for wheat, it might be true, but the farmers would make more money growing other crops. "I have found in every municipality where I have been that if you put the problem frankly before the farmer and ask him to grow wheat if he goes to the wheat, he will say, 'I am not going to do it, although we will not make as much out of it as from oats or something else, we will grow wheat'."

FEEDING WHEAT TO HORSES
Many farmers were now feeding wheat to hogs because having regard to the price of oats, oats right now when the horses feed of it is the only food which will, said the Commissioner. "The Dominion Government will have to raise the price of wheat if this farm is to conserve it."

Outlining the way the department proposed to go to work, Dr. Crumlin said the farmer was pretty well fed up with the elaborate reports. But with help and having to work hard he was not in good temper. His reply to it all was, "as we cannot profitably help, let us let the farmer do it as he sees fit, as we can do it."

What was the spirit of the farmer? The department had found out that the best results were always secured by working through a few men in each community. This had been the experience in regard to hogs and since an appeal was made last year there were 25 per cent more men in the country.

FOURTY COUNCILS START
The plan was to start on March 23rd with meetings of the County Councils as a sort of conference. This would be followed by the appeal to the pupils in the Province and that in turn by a preparation work where machinery and implements could be overhauled and put into shape.

It is reported to help be pointed out to some of the volunteers help from the cities last year had been satisfactory, some of it had not. Last year 7,000 hogs would be raised in the country but this year it was hoped that 15,000 hogs would be raised. It was also hoped that 100,000 hogs would be raised. It was also hoped that 100,000 hogs would be raised. It was also hoped that 100,000 hogs would be raised.

A thorough campaign would be made. The Organization of Farmingtonshire had 100 branches throughout the Province. One difficulty was that had been experienced last year was to get the farmer and the laborer together. Two other things were that the farmer was not ready for the city man at the time he was in his application, with the result that the man went back to the city and did not have the laborer. There were difficulties that could be easily overcome.

The Prime Minister and Leader of the Opposition joined in a resolution

Lack of Food Threatens the Battle Line

"The food wanted by men-kind does not exist. The word 'shortage' is not strong enough. The whole world is up against a nasty thing, familiar to the people of India, called famine."

Lord Riddell, British Food Controller.

One year ago, only the enemy was on rails.

To-day, Great Britain, France and Italy, are on rails.

To-day, Germany controls the wheat lands of Roumania, Russia, Poland and Ukraina.

To-day, the shadows of hunger, famine, disease and death hang over the Allies.

Upon the 1918 crop from Canada and the United States depends the fate of the democratic peoples of the world.

If that crop is sufficient the Allies can be fed.

If that crop is not sufficient the Allies may have to accept a German peace.

That Battle-Line in France and Flanders Must Not Want

Do you realize what a German Peace would mean to Canada?

Germany covets our natural resources—our agricultural and mineral wealth, our forests, our fisheries, everything that is Canada's.

Germany won't be satisfied with European territory, with teeming masses, wrangling factions and depleted natural resources. She wants colonies—big, thinly-populated countries in temperate zones for her sons and daughters to go to propagate their kind.

The Kaiser would sacrifice millions of Germans to-morrow if he thought that by so doing he could get out on Canada's shores as Conqueror.

And what's more, the Germans would offer themselves for the sacrifice, so great is their abjection to the military ideal.

The only thing that balks German ambition is that battle line from the North Sea to Switzerland—and the British Navy.

The Only Thing That Sustains Our Men on Land and Sea—Is Food

What are we, each one of us, prepared to do to insure that Food supply?

Germany, by her submarine campaign, has seen that great Armada, the British Mercantile Marine, shrink in volume.

Germany has seen South America, Australia, New Zealand, India and far away outposts of the Empire practically cut off from supplying food to the Motherland because of the lack of ships.

Forty million Allied men and women having been put on war work, food production has dangerously decreased in Europe.

These forty million consume more food than they were in ordinary occupations, and there are fewer men for farming. Hence an increased demand and decreased supplies.

The harvest of France was one-third less in 1917 than 1916, and this year must be smaller still, owing to lack of fertilizers, which cannot be supplied through shortage of shipping.

The world's decrease in live stock, as compared to 1913, is approximately 115,000,000 head.

Herbert Hoover Says:

"Our European Allies are dependent upon us for greater quantities of food than we have ever before exported. They are the first line of our defence. Our money, our ships, our life blood, and our heart of all, OUR FOOD supply, must be of the most abundant."

"In pre-war times, Britain, France, Italy and Belgium yearly imported more than 750,000,000 bushels of grain, plus vast quantities of meats and fats."

"The submarine destruction of shipping has made it necessary to abandon the hope of bringing food from South America, Australasia and India."

"Food must, therefore, be shipped from Canada to the United States—the nearest and safest route."

"Canadian and United States supplies are normally 350,000,000 bushels short of the Allied need, by greater production and conservation."

"Food must, therefore, be shipped from Canada to the United States—the nearest and safest route."

"The remaining shortage of 200,000,000 bushels must be overcome by greater reduction in consumption in the Allied countries. And this is being done by Britain, France and Italy rationing their people."

"From two and a half years of contact with Germany, the German Army have come out of the horror with the complete conviction that autocracy is a political faith and a system that directly endangers and jeopardizes the future of our race—that threatens our very independence. It has, however, been able to command a complete inspiration of devotion and self-sacrifice in its people to the interest of their nation."

"The German farmer, in the name of the Fatherland, supports a nation two-thirds as large as the United States and threatens to subject the world from an area one-half the size of Ontario."

"My vision of war is not of an academic problem to be solved by discussion. To me it is a vision of brave, dying men and suffering women and children, for service on whose behalf the greater exertion of the Allies' farmers comes as a direct necessity and a direct plea. The Canadian and the United States citizen who sees war as it is, needs no inducement and no inspiration but the thought that every spare full of earth turned, and every animal reared is lessening human suffering and guaranteeing the liberty of the world."

"If fear the disciplined people behind the German Army, the rationed family and the determined wife and sister and daughter and mother may stand and starve—so that their fighting men may be fed—I fear it more than the Imperial German Army."

Britain is now on Food Rations. France is now on Food Rations. Italy is on the verge of starvation. Only continuous support from us can enable us to hold out.

Only with a disciplined people behind, and the rationed British Nation, the blood of our blood, bone of our bone, and by paying the price and sharing with France and Italy their limited stock of food. For in this there

is mighty pride, a conscious measuring of their glory with the best traditions of ancient Sparta, and of Imperial Rome, for Britons know that upon them rests the burden of saving humanity. The story of their service shall ring and echo forever along the hills top of history.

To Send More Food to Our Allies Is Not Charity

It is war. The Allies have a right to demand it. They have a right to the offer of only what is "left over." Those who are fighting the common battle for civilization and for our protection have a higher claim than had Lazarus, to only the "crumbs that fall from the rich man's table."

The Canadian people must recognize that our Allies have the first claim on our food supplies.

As the shipping situation makes the Allies dependent upon North America for food, it is vitally necessary that Canada should increase her production of food in order to take a larger part in providing for the Allies' requirements. This is especially urgent as the maintenance of a large United States army in Europe will cause a very heavy drain on that country's food resources.

There must be no peace without victory.

For nearly four years Germany has been at a standstill against the powers of law and order. She has failed so far to make good her escape from her booty by superior strength and skill. And now she is at a standstill.

What she can gain from these tactics is plain to all the world in the sorrowful experience of Russia.

Germany's most dangerous weapon is not her Zeppelins—that is obsolete. Not her submarines—that can be overcome. Not her machine-like army—that has been repeatedly hurled back by the living armies of freedom. Her most dangerous weapon is her propaganda, of peace.

While we in our hands she murders and despoils, with her voice she invites to parleys.

solemn and absolute truth. I mean when I say it that it would be very hard to be a million times better for the people of those islands to be dead, every one of them, rather than live on as the worst of a triumphant Prussia.

How can any lover of liberty remain inactionable to this peril?

Food for Victory and the world made safe for democracy.

Lack of food means disaster and subjugation to Germany.

The Citizens of Ontario Must Lead This Mighty Crusade for Greater Food Production

They did it last year and will do it again. As the greatest food-producing Province, Ontario must maintain her leadership in America.

Greatest are our opportunities—our responsibility is tremendous.

Upon every man and woman, boy and girl, rests a personal obligation to serve: Every pound of food produced, in whatever form, is a contribution to the Cause of Freedom.

Ontario farmers should show 500,000 acres of spring wheat.

Every Ontario farmer whose land is at its fullest, should put an extra five acres into wheat, even at the expense of another crop.

What YOU Can Do to Help

At all costs production must be maintained. That's why farmers and farmers' sons are being exempted from military service. Working on a farm is equivalent to service in the Second Line Trenches.

To enable farmers to do the work of two factors are essential. The first is Time. What factors are to do must be done at once. Nature waits for no man. The second is Labor. Many farmers for no reason the acres they would become they cannot get the necessary help. Many are afraid to increase their acreage because they fear they would not be able to cultivate as their harvest is usual crop after they had raised it.

Upon the farmer is not one to be placed solely upon the farmer. Neither by intrigue, suggestion, device and propaganda to divert the attention of her antagonists from the struggle itself, and thus to gain her ends by relaxing the strength and skill of her antagonists.

What she can gain from these tactics is plain to all the world in the sorrowful experience of Russia.

Get Together in the Fight For Liberty

Let us not lament what MIGHT BE, but eagerly face what MUST BE.

Fifteen thousand boys between the ages of fifteen and nineteen must be organized as "Soldiers of the Soil" to work on Ontario farms this season.

Farmers can get one or more of these boys by applying to their District Representatives or to the Public Employment Bureaux at Toronto, Ottawa, Hamilton or London.

Unmarried men, exempted from military service, are urged to take up farm work. Married men who have had previous experience on a farm are urged to resume farm work for a season. Employers of labor are asked to assist men to take up farm work.

We urge the farmers and the townsmen to get together for greater production in the interests of a free people and democracy.

Let the Organization of Resources Committee, your District Representatives or the Public Employment Bureaux act as your intermediaries.

When we have done our best, the cry for food cannot be wholly met.

For the rest---our Allies are tightening their belts.

Britain's Standard Ships in Various Stages of Construction

With The British Navy in War Time

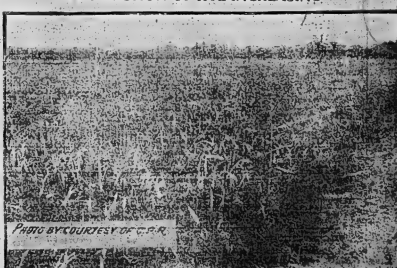

THE Standardizing of ships has been recently introduced into Great Britain, and the many great shipyards the little boats are being speedily in building ships now just as Henry Ford turned out motor cars. The necessity for the standardizing of ships has been brought about by the progress of the construction on the shipyard's side, and the need for being put forward by the great shipbuilders. The plan was introduced to cope with the increasing cost of shipbuilding. The standardizing of ships was not only introduced. The accompanying illustrations demonstrate what has been made and which have been made. The result of the standardizing of ships means that Great Britain can construct ships at the largest conceivable output of shipbuilding by Admiral Tait and his staff.

Greatly increased production of rye is one of the marked developments of agricultural activity in Canada. In 1915, produced 5,512,000 bushels of rye—a million more than in the previous year—up while wheat with all eyes to the primary crop of this country, and while Canada is still a very big war behind Russia, France and the United States in the production of rye, there are indications that the figure will not greatly exceed that of the great crop this year. The production of rye has increased instead of being held in check as was the reason for the increased production. There was a time when the increase of food value had been a popular belief, but the rye had been the great value of the rye, and the necessity of increasing wheat has resulted in the adoption of rye bread, and in many ways, we have all discovered how valuable it is. The daily car service of the Canadian Pacific Railway did much to increase it in the Canadian north and to popularize its use. The Province of Ontario was in 1912 the greatest producer of rye, and the three provinces between them were a large contributor to the total. The production of rye was raised from 12,000,000 bushels in 1912 to 5,512,000 bushels in 1915. R. F. C. R.

GERMANY'S VAIN HOPE

It is difficult, amid all the boasting and the bluffing, to believe that the Germans are now serious in their desire to open negotiations.

In Germany, there is no such thing as a free press. The military dictatorship is so omnipotent that it can suppress any news, speaking at its pleasure, and it can suppress any news, speaking at its pleasure, and it can suppress any news, speaking at its pleasure.

Whether the (German parties) in Germany may possibly, they have only too well that negotiations and negotiations with Germany's empire, trading in the light of right importance cannot be so easily dismissed.

However, brilliant Germany's situation may be, for while her commercial empire still flourishes, she is in a position to force the Allies to grant her a favorable treatment in the European markets.

WANT ALLIES' MARKETS

The German, contrary to what is generally supposed, does not want the fruits of the Allies' markets. It is not so much to force their markets to accept Germany's military dictatorship.

WANT KICKER DEMANT

Since a guarantee, however, will be useless for a country as completely bankrupt as Germany, there is no reason to the Allies' markets is not enough. In the world, even the leading magazines, Germany may be recorded "no more" favored nation.

BLOOD WILL TELL

There is no such thing as a clean blood. It is not so much to force their markets to accept Germany's military dictatorship. Since a guarantee, however, will be useless for a country as completely bankrupt as Germany, there is no reason to the Allies' markets is not enough.
